OUR HISTORY

Hofu was founded in 2005 with a mission to help businesses adapt to the fast-evolving digital world. Back then, marketing was shifting rapidly, and we saw an opportunity to bring clarity, creativity, and strategy to brands looking for more than just basic online presence. Starting with a small, dedicated team and a handful of loyal clients, we focused on building strong foundations—delivering measurable value through web development, SEO, and design that put clients first.

Over the years, Hofu has grown into a full-service digital agency trusted by startups, schools, contractors, and enterprise brands. We've expanded our services to include PPC, content marketing, social media advertising, and branding—staying ahead of trends and technology. While our team and tools have grown, our mission remains the same: help businesses build recognition, earn loyalty, and make their mark. Today, Hofu stands as a trusted digital growth partner with roots in strategy and eyes on innovation.
